## US8375

### UNITIZED CURTAIN WALL

The **US8375**, our standard **unitized curtain wall** system, has been a staple in building construction since 1996, during the FM Enterprise era. This system is a conventional thermally broken unitized curtain wall system.

### FEATURES

- Mid to high-rise application
- Shop glazed
- System depth - 7 3/8" to 8 3/8"
- 2 1/2" or 3" mullion sightlines (can accommodate custom sizes)
- Can accommodate infills up to 1 3/4" for greater thermal performance
- Furnished in captured or SSG
- Exterior sunshades and interior light shelves are available
- System performance is driven by glass
